

**BETTER BLEACH. BETTER WATER.**

**ONLY OLIN.**

ONLY **OLIN.**

## THE BLEACH EXPERTS

Olin has been in the business of making bleach and related products since 1892. That's 125 years of experience and expertise in meeting and exceeding customer expectations.

Today, Olin is the largest producer of industrial bleach in North America.

We make hundreds of millions of gallons of filtered, high-quality bleach each year.

And, Olin's knowledgeable sales, customer service and technical support teams can help solve even the toughest customer problems.

## ALWAYS AVAILABLE AND RELIABLE

Our ability to provide a reliable supply of bleach for treating water and wastewater is unmatched.

Through our proprietary railcar technology and truck distribution network, you can count on us to deliver high-quality product to you wherever you are in the U.S. and Canada.

Our low-salt, high-strength product, HyPure® Bleach, allows us to deliver more active ingredient in each gallon of solution.

Each Olin facility follows ISO 9001-certified procedures, so our customers benefit from accurate, reproducible analytical data. And, our automated systems allow us to meet various quality and strength requirements. By incorporating filtration and temperature control in the manufacturing process, Olin maximizes quality while minimizing product decomposition.

## A POWERFUL SOLUTION

Olin makes bleach in a variety of standard concentrations that are approved by and registered with the EPA. We work with you to help meet any and all regulatory requirements.

Olin bleach is registered under FIFRA and PCPA, meets requirements of AWWA B300, and is compliant with NSF/ANSI Standard 60.

Our bleach products are approved for use in:

- Drinking water and wastewater disinfection
- Swimming pool disinfection
- Household cleaners and disinfectants
- Laundry applications
- Hospital surface disinfection
- Food process and sanitizing
- Manufacturing/bleaching pulp and paper
- Manufacturing textile products

In addition to providing a simple, economical purification solution, Olin bleach offers lower maintenance than other disinfection options, and can be tailored to meet your specific needs.

## SAFE AND SECURE

As a leader in the bleach industry, our commitment to safety and security is evident in every part of our business.

Olin is a member of the Chlorine Institute, the American Chemistry Council (ACC), and the Chemistry Industry Association of Canada (CIAC).

We have incorporated the ACC's Responsible Care® Program and the CIAC's standards into our business practices.

We are committed to safety, health, security and the environment – and to helping our customers live out that commitment as well.
